CAREER VISION -

I want to help low-income families navigate social and political life and gain access to the full portfolio of resources they are entitled to so that they can achieve their full potential. I want to invest in the Latino and LGBTQIA+ communities by producing relevant research that leads to policy recommendations that allow these communities to have access to equal opportunities in and out of the workforce.

EDUCATION

WORK EXPERIENCE -

Summer Institute On Medical Ignorance

Intern

Summer 2019

- Worked at the Experimental Ultrasound and Neural Imaging Lab (**EUNIL**)
- Designed and carried out an experiment for an independent research project that tackled non-linear current density patterns with lab software and hardware to understand how electric patterns work in the human body, which included designing and 3-D printing a prototype to collect data from ultrasound transducers and analyze data collected on VERA, a data processing software.

Center for Latina/os and American Politics Research (CLAPR)

Multiple Positions

July 2022 - Present Day

- Developed a scoring system for classifying reports by political issues
- Analyzed patterns in attention to different aspects of the COVID-19 pandemic and identified blind spots in policy recommendations to address the COVID-19 pandemic and gaps in media representation of marginalized communities
- Collected and codified newspaper articles by determining the number of sources, the number of Hispanic sources, and whether the article used uplifting or deficit language.
 - Subsequently, supervised a group of analysts who were conducting the second round of data
- Participated in the planning committee to launch **SoLX**, a program that aims to center members of the Latinx community in policy-based forums tackling different issues within the community.

Arizona State University School of Politics and Global Studies
